Introduction

The Autobahn App Market is an easy access point for Deutsche Bank's rich suite of electronic distribution services.

Browse and arrange your most used 'Apps' in just one place. Benefit from advanced search and filter functions that make finding the right App simple, fast and intuitive. Create your own Apps library by saving your favourite Apps in the 'My Apps' area.

Autobahn Apps are individual pieces of software that deliver our electronic services. Each App provides a specific function, tailored for a specific need. Benefit from state-of-the-art analytics tools and gain unparalleled access to extensive market liquidity across all asset classes. Perform pricing calculations on derivatives or portfolios or browse the wealth of Deutsche Bank's published content and market data including research, trader commentary and market wraps.

Launch your Apps from a single desktop Toolbar. Manage your My Apps library and browse for further Apps and content using the App Market.

Autobahn

Logging into the Toolbar

To launch the Toolbar;

- Select **Start > All Programs > Autobahn Toolbar > Autobahn Login**
- Enter your **WebSSO** username and password (see Fig.1.0)

Fig. 1.0 – Logging into the Toolbar

- Click **OK**

This will now launch the **Toolbar** (see Fig.1.1)

Fig. 1.1 – The Autobahn Toolbar

I cannot find the Toolbar in my Start menu. What should I do?

Firstly, verify that you do not have the Toolbar installed on your PC. To do this, launch **My Computer** (from your **Start** menu), browse to **C:\program files** and look for an **Autobahn Toolbar** folder. If it is present, select the **login.exe** file to launch the Toolbar. You should then be able to launch the **Autobahn Login** the next time from your Start menu.

Getting the Toolbar installed

If you still do not have the **Autobahn Toolbar folder** installed on your PC, perform the following:

- Navigate to the [dbSupportPlus](https://dbsymphony.gto.intranet.db.com/snc/dbsupportplus/home_usuk.do) intranet page (https://dbsymphony.gto.intranet.db.com/snc/dbsupportplus/home_usuk.do)
- Click **Raise a Request**
- Select the **Add/Remove Software (Automated)** link from the Software panel
- In the **Automated Software Distribution** window, select the appropriate option;
 - **Request applications for a single user Windows ID** or,
 - **Request a single application for more than one user Windows ID**
- For a single user request, confirm the Windows ID of the user

- Press **Submit**
 - For multiple users, you will be taken directly to the Search for an application screen
- Search for the software package **Autobahn Toolbar** (the UID is **086070**)
- Click **Search**
- Select **Add to cart**, once found
- For multiple user requests, click on the **Excel** icon to download the template. Follow the instructions in Excel to update the file
- Select **Browse** to find the saved file
- Click **Upload** to process the request
- Choose the **Checkout** button and enter your line manager's email address
- Click **Submit Request**

Once the request has been approved, the package (System Name:APP-AUTOBAHN_TOOLBAR-200-) will be automatically be installed on your PC. You will then find the **Autobahn Toolbar** from your **Start > All Programs** menu.

Working with the Toolbar

The Toolbar is divided into six main sections (see Fig.1.2):

1. **My Apps** – a repository of the Apps that you have access to launch and/or view
2. **Top 5 Apps** – shortcut links to up to 5 of your favourite Apps
3. **App Market** – access the App Market for further information, support documents etc.
4. **Search** – search for Autobahn content, including DB trader commentary, research documents and instrument data
5. **Control panel** – adjust your settings, send error logs/chat messages to the support desk
6. **Exit or minimise** the Toolbar

Note: Clicking on a shortcut link on the Toolbar will launch a new version of the App, even if there is one (or many) already running.

Fig.1.2 – Sections of the Toolbar

My Apps

Fig.1.3 – Reviewing App information, removing Apps and closing out of the My Apps launch window

- Launch the **My Apps** page using the link on the Toolbar
- Hover your cursor over an App to view further information (from the **i** icon); remove it from My Apps by selecting the **x** icon to uninstall it (see Fig.1.3)
- Review information about the current **Featured App**. (More details about all of the Apps are available in the **App Market**)

- Use the scroll-bar to slide up and down the page and the **x** in the top right-hand corner to close out of launch window

Note: You may not have the required permissions to launch an App (only to view the icon). If you require further access, contact your DB sales representative.

Close out of the My Apps launch window, by simply clicking outside of the area. If however, you select the - icon from the Toolbar, this will close My Apps and minimise the Toolbar simultaneously.

Top 5 Apps

To enable you to access up to five of your favourite Apps quickly, the Toolbar has been designed so that you can **drag and drop** Apps onto it (see Fig.1.4). This can be done from My Apps or managed via the App Market (refer to the **App Market – My Apps** section on page 9).

Fig.1.4 – Favourite Apps in the Toolbar

Fig.1.5 – Refreshing your My Apps list

To add an App to the shortcut section, locate it from My Apps and drag and drop it onto your Toolbar.

Note: In order to save your selection (for subsequent sessions), you must select **Refresh My Apps list** (from the **Control panel** menu in the Toolbar) – as seen in Fig.1.5.

App Market

Browse and arrange further Apps using the App Market. Benefit from advanced search and filter functions that make finding the right App simple, fast and intuitive.

Launch the App Market by selecting the link from the **Toolbar**.

Browsing Apps

Using the links in the left-hand navigation bar, use the drill-down menu to search for Apps by:

- **Asset Class**
- **App Type**
- **App Function**
- **and other classifications**

The menu is context driven, so by making a selection from one of the categories, this will present you with relevant filters in the corresponding sections.

Fig.1.6 - Browsing Apps in the App Market

The screenshot displays the 'Autobahn App Market' interface. At the top, there is a navigation bar with 'Home', 'Browse Apps', 'My Apps', and 'About App Market'. The 'Browse Apps' section is active, showing a sidebar with filters for 'Asset Class', 'App Function', and 'App Type'. The 'Asset Class' filter is expanded, listing categories like EM (26), Rates (14), NA Rates (13), FX (13), Futures And Options (13), Foreign Exchange (13), Fixed Income (13), Equities (13), Credit (13), Comm (13), Autobahn Finance (13), and Rate (7). The main content area displays a grid of app cards, each with an icon, title, description, and an 'Add to My Apps' button. The cards include: EM Profit Monitor, My Charts, Curve Analyser, Argentinean GDP Analytics, EM Rel Value Country Reports, EM Custom Analytics, Correlation Charting, Volatility Charting, and Times Series Charting. On the right side, there are two large promotional cards for 'Metals Executable Pricing' and 'Monetary Policy'.

For example, selecting the Emerging Market Asset Class will highlight it and then display the applicable **App Functions** and **Types**. Drill down into the **Functions** or **Type** categories to apply further filter settings.

- Reset the filters by selecting the **x** from the highlighted row
- In the Apps results section, select **More** to review information about that App
- Select the **+ Add to My Apps** link to add it to your My Apps library or the **Launch** icon to open a (web-based) App, directly from the App Market (see Fig.1.6)

Note: The **+Add to My Apps** and **Launch** links will only appear if you have the permissions to access them.

App Market – My Apps

The App Market also enables you to manage your My Apps folder which is also saved to your (desktop) Toolbar.

Fig. 1.7 – My Apps view in the App Market

Hover your cursor over an App to access the action buttons. Choose the 'x' icon to remove the App or the 'i' icon to review further information. **Manage your Toolbar shortcuts** by dragging and dropping icons from the My Apps section above it.

Note: Remember to select the **Refresh My Apps List** options from the settings menu of your Toolbar to save any changes (refer to the **Control Panel** section on page 11).

Toolbar – Search

Utilise the Toolbar **Search** feature to find the relevant Deutsche Bank content;

- **Research Documents**
- **Trader Commentaries**
- **Apps**
- **and other classifications**

Enter your search parameter and click the magnifying glass to activate it. (An auto-complete function conveniently returns a matching list of any relevant stocks or sectors based on your input).

Fig. 1.8 – Searching via the Toolbar

In the Search results window, you will now see links to the research documents, trader commentaries and associated Apps. Use the filter links (from the left-hand menu) to tailor the results further.

Fig. 1.9 – Autobahn Search results window

Control Panel

In the Toolbar, select the icon highlighted below (see Fig.1.10) to access the Control Panel.

Fig. 1.10 Launching the Toolbar Control Panel

- **Settings** – review, edit or delete the location settings for each App (in the **Connectivity** tab). Change your Web SSO password using the link in the **Security** tab and adjust the launch window settings in the **Options** section.
- **Chat** – send/review Chat messages sent to/from the Autobahn Support desks
- **Send logs** – to assist in the diagnosis of any technical issues, select the App(s) and enter any further details about the issue and submit it to the support desk
- **Hide** – minimises the Toolbar (retrieve it from your Windows Toolbar)
- **About Autobahn Toolbar** – verify the version and authentication details
- **Refresh My App List** – select this link after making any changes to My Apps
- **Exit Toolbar** – log out of the Toolbar

Exiting/minimising the Toolbar

The final section of the Toolbar provides you with quick links to either close or minimise the Toolbar (see Fig.1.11).

Fig. 1.11 – Accessing the Toolbar logout and minimize

Closing the Toolbar will also shut down all of the opened Apps.

Minimising will send the Toolbar to your PC Toolbar (which can be retrieved again later as and when you need to use it).

Autobahn

About Autobahn:

Autobahn - Deutsche Bank's award-winning electronic distribution service

Since 1996, Autobahn has been connecting clients to Deutsche Bank's innovative Capital Markets products and services. Having started life as an execution tool, the new Autobahn now also provides electronic access to our sales, trading and research know-how. The result: An integrated experience combining powerful insight and execution applications with our outstanding voice services.

- Gain unparalleled access to markets and liquidity
- Electronically trade across multiple asset classes
- Intuitively access Deutsche Bank's powerful analytics & published content

Autobahn. Evolving Intelligent Trading.
